1. **Scope** 适用范围

This product specification defines the requirements of the Lithium Manganese Dioxide battery supplied to the customer by EEMB Co., Ltd.

本产品规格书适用于 EEMB 提供的锂二氧化锰电池。

2. **Features and Applications** 特征和应用

Features 特征:

- High energy density. 高能量密度。
- Outstanding operational temperature range: -40°C to +85°C. 工作温度范围广：-40℃至+85℃。
- Stable discharge characteristics. 稳定的放电特性。
- Low self-discharge: less than 1% per year at room temperature. 自放电率低：室温下每年低于 1%。
- Superior shelf life and operational life: up to 10 years. 卓越的保质期和使用寿命：长达 10 年。
- Safe and environmentally friendly. 安全环保。

Applications 应用:

- Water, gas and electricity meters 水，煤气和电表
- Alarm system, GPS system, GSM system, Medical devices 报警系统，GPS 系统，GSM 系统，医疗设备

3. **Battery Basic Characteristics** 电芯产品基本特性

5. **Appearance 外观**

It shall be free from any defects such as remarkable scratches, breaks, cracks, discoloration, leakage, or middle deformation.

电池表面无划伤、裂纹、脏点、锈蚀、变形、变色、漏液等缺陷，中间无翘起。

6. **Performance and Test Methods 性能与测试方法**

<td>Amplitude at frequency range: 5 to 55Hz: ±0.75mm. Frequency range: 5Hz, 55Hz, 500Hz, 55Hz, 5Hz.</td>
</tr>
</tbody>
</table>
无损坏，泄漏，无火灾或爆炸。

Acceleration at frequency range: 55Hz to 500Hz: 100m/s.
Cycle duration: 15min.
Oscillation time of each main axis: 3h.
频率范围的振幅：5~55Hz: ±0.75mm。
频率范围：5Hz, 55Hz, 500Hz, 55Hz, 5Hz。
频率范围加速度：55Hz~500Hz: 100m / s。
周期：15分钟。
每个主轴的振荡时间：3h。

7. Characteristics Curve 特征曲线

![Discharge Characteristics](image1)

![Voltage Vs. Temperature Characteristics](image2)
8. Memory Backup Circuit Design Suggestion 存储器备份电路设计建议

A primary lithium battery is not rechargeable, when used for memory backup in combination with another power source; current may flow into the battery from the other source. A protection diode and resistor into the circuit is needed to avoid battery charging or over discharging. Select a silicon diode or a diode with minimum leakage current, and design the circuit so that the amount of charging due to leakage current will not exceed 2% of the nominal battery capacity over the total period of use.

当与另一个电源组合用作存储器备份时，一次锂电池不可再充电；电流可能从另一个源流入电池。需要在电路中使用保护二极管和电阻器以避免电池充电或过度放电。选择硅二极管或具有最小漏电流的二极管，并设计电路，使漏电流引起的充电量不超过总使用时间内电池标称容量的 2%。

While used for memory backup, the following circuit shall be applied:
用于内存备份时，应使用以下电路:
9. Matters Needing Attention 注意事项

Strictly observes the following needing attention. EEMB will not be responsible for any accident occurred by handling outside of the precautions in this specification.

严格遵守以下注意事项。对于因本规范中的预防措施之外的操作而发生的任何事故，EEMB概不负责。

! Caution 警告

- Use Nickel-plated iron or Nickel-plated stainless steel for the terminals that contact the battery.
  使用镀镍铁或镀镍不锈钢作为接触电池的端子。
- Make sure that terminal contact pressure is 50g minimum, for a stable contact.
  确保端子接触压力最小为50g，以确保稳定接触。
- Keep the battery and contact terminal surfaces clean and free from moisture and foreign matter.
  保持电池和接触端子表面清洁，避免受潮和异物进入。
- Before inserting the battery, check the battery contact terminals to make sure they are normal, not bent or damaged. (Bent terminals may not make good contact with the battery or may cause short circuit.)
  在插入电池之前，请检查电池接触端子，确保它们正常，没有弯曲或损坏。（弯曲的端子可能与电池接触不良或可能导致短路。）
- When the batteries are piled up in a disorderly way, their positive and negative terminals may short-circuit, consuming some batteries while charging others, causing explosion.
  当电池无序堆积时，它们的正极和负极可能会短路，在给其他电池充电时消耗一些电池，从而导致爆炸。
- Lithium batteries that are almost exhausted can output a voltage that is almost the same as that of a new battery, please do not judge a battery only with a Voltmeter. Avoid using a mixture of old and new batteries; replace all batteries in a set with new one.
  快用完的锂电池可以输出与新电池几乎相同的电压，请不要仅用电压表判断电池。避免新旧电池混用：用新的电池更换一套旧电池。
- Lithium batteries need a period of time to recover their normal voltage after even a slight short circuit. Therefore, if the battery is short-circuited, wait an adequate long time for batteries to recover before measuring their electrical characteristics.
  即使是轻微的短路，锂电池也需要一段时间才能恢复正常电压。因此，如果电池短路，请在测量电气特性之前等待足够长的时间让电池恢复。
- Use a high impedance (1M or higher) voltmeter to measure battery voltage.
  使用高阻（1M或更高）电压表测量电池电压。
- Battery characteristics vary with type and grade, even when batteries are the same size and shape. When replacing batteries with new ones, be sure to carefully check the symbols and numbers on them.
  即使电池尺寸和形状相同，电池特性也会因型号和等级而异。更换新电池时，请务必仔细检查电池上的符号和数字。

! Danger 危险

- DO NOT recharge, short-circuit, disassemble, deform, heat or place the battery near a direct flame. This battery contains flammable materials such as lithium and organic solvent and performing any of the above actions could cause it to ignite explode or become damaged.
  请勿在直接火焰附近充电，短路，拆卸，变形，加热或放置电池。该电池含有易燃材料，如锂和有
DO NOT over-discharge the battery. In case the battery is over-discharged battery has potential of explosion. In case battery is over-discharged, when connected with exterior power source or connected with other batteries in series, explosion may occur.

Keep this battery out of the reach of children. If it is swallowed, contact a physician immediately.

When storing a battery or throwing it away, be sure to cover it with tape. If the battery is contacted with other metal objects, it could cause fire or become damaged.

The battery should be stored in a cool, dry place. Avoid storing the battery in direct sunlight, or in excessively hot and humid place.

Thoroughly read the user’s manual before use, inaccurate handling may cause leakage, heat, smoke, explosion, or fire, causing device trouble or injury.

Insert the battery with the "+" and "-" ends correctly oriented.

If the battery is used together with new batteries, do not use it with a different type battery.

Do not solder the battery directly.

Avoid storing the battery in direct sunlight, or in excessively hot and humid place.

EEMB reserves the final explanation. Please use battery strictly according to specification. EEMB will not be responsible for any inappropriate operation. EEMB keeps the right to change product specifications without previous notice. If any question, please consult with the manufacturer.

EEMB 保留最终解释权。请严格按照规格使用电池。EEMB 对任何不当操作将不负责任。EEMB 保留修改产品规格书不另行通知的权利。如有任何问题，请咨询制造商。
